

Rock Wall Rocks (Package of 5) (07-0008)

1. Rock Wall Rocks are packaged as a set of 5 with hardware. There are three shapes of Rock Wall Rocks in each package.
2. Place Rock Wall Rock onto surface of board. (Board must be at least 1" thick) Board should be approximately 5-1/2" in height and should be securely fastened to a supporting structure. Rocks are strongest when attached with the two holes on top. Typical placement of Rocks is a staggered pattern, when constructing a rock wall.
3. Attach Rock to board with three 5.5mm diameter x 30mm long pan head screws and three 6.3mm i.d. x 14.5mm o.d. washers provided.
